SUMMARY

Motivated and adaptable Computer Science graduate with strong problem-solving abilities and a passion for technology and software development. Skilled at working both independently and collaboratively, with a strong ability to analyze challenges, manage tasks efficiently, and deliver reliable solutions in fast-paced environments. Currently seeking an opportunity to begin my professional career in the technology industry.

EDUCATION

BSc in Applied Computer Science · Neapolis University Pafos · Paphos, Cyprus

Oct 2022 – Jun 2026

Dissertation: Design and experimental evaluation of vision-based navigation strategies for autonomous line-following robots.

- Developed a strong foundation in core computer science principles, including programming, algorithms, data structures, and software engineering.
- Completed a wide range of coursework covering databases, operating systems, computer networks, and web technologies.
- Acquired practical and theoretical knowledge in artificial intelligence, problem-solving, and system design through academic projects and coursework.

PROJECTS

Vision-Based Navigation for Autonomous Line-Following Robots

- Designed and built a Raspberry Pi 5-based robotic platform to evaluate vision-based navigation strategies for autonomous line-following.
- Implemented and compared a basic vision-based algorithm, Dynamic ROI, Adaptive Threshold, and Dynamic Threshold approaches against an IR sensor-based baseline.
- Assessed navigation accuracy, stability, and performance across all methods to inform design recommendations.

EXPERIENCE

Web Development Intern · eAdvertise · Paphos, Cyprus

Mar 2026 – Apr 2026

- Maintained and enhanced WordPress-based websites through content management, page customization, and system configuration.
- Implemented UI updates in Elementor and worked with CMS technologies to improve usability across client sites.
- Managed structured data for business directories, including categories, locations, listings, and multimedia content.
- Tested and debugged live sites, working closely with developers to identify and resolve issues.

Waiter · Pafos Gardens Hotel · Paphos, Cyprus

Jun 2024 – Oct 2025

- Delivered high-quality customer service in a fast-paced hospitality environment, balancing multiple tasks under pressure.
- Built strong teamwork, time management, and reliability while working flexible shifts.

Waiter · Genadio's Souvlakia Restaurant · Paphos, Cyprus

Mar 2022 – Nov 2022

- Delivered fast, efficient customer service in a high-demand food service environment.
- Strengthened communication and multitasking skills managing orders and supporting team operations.

SKILLS

Programming & Tools: JavaScript, HTML, CSS, Java, Python, Git

Strengths: Problem Solving, Teamwork

Languages: Greek (Native), English (Fluent)
