## Summary

Motivated and adaptable Computer Science graduate with strong problem-solving abilities and a passion for technology and software development. Skilled at working both independently and collaboratively, with a strong ability to analyze challenges, manage tasks efficiently, and deliver reliable solutions in fast-paced environments. Detail-oriented and eager to continuously expand my technical knowledge while contributing to innovative projects and organizational success. Currently seeking an opportunity to begin my professional career in the technology industry.

## Education

**Neapolis University Pafos**

### BSC in Applied Computer Science

School of Economics, Administration and Computer Science

Department of Computer Science

Oct 2022 – Jun 2026

Dissertation: Design and experimental evaluation of vision-based navigation strategies for autonomous line-following robots.

- Developed a strong foundation in core computer science principles, including programming, algorithms, data structures, and software engineering.
- Completed a wide range of coursework covering databases, operating systems, computer networks, and web technologies.
- Acquired practical and theoretical knowledge in areas such as artificial intelligence, problem-solving, and system design through academic projects and coursework.

## Projects

### **Design and experimental evaluation of vision-based navigation strategies for autonomous line-following robots.**

This thesis focuses on the design and experimental evaluation of vision-based navigation strategies for autonomous line-following robots. A Raspberry Pi 5-based robotic platform was developed and tested using a basic vision-based algorithm, Dynamic ROI, Adaptive Threshold, Dynamic Threshold, and an IR sensor-based baseline to assess navigation accuracy, stability, and performance.

## **Work Experience**

### **eAdvertise, Pafos, Cyprus – Web Development Intern**

1 March 2026 – 3 April 2026

- Maintained and enhanced WordPress-based websites through content management, page customization, and system configuration.
- Worked with Elementor and CMS technologies to implement UI updates and improve website usability.
- Managed structured data for business directories, including categories, locations, listings, and multimedia content.
- Performed website testing, debugging, and quality assurance to identify and resolve content and functionality issues.
- Worked closely with developers and team members to maintain, update, and enhance client websites.

### **Pafos Gardens Hotel, Pafos, Cyprus – Waiter**

Jun 2024 - Oct 2025

- Provided high-quality customer service in a fast-paced hospitality environment, ensuring customer satisfaction and effective communication.
- Developed strong teamwork and time management skills while handling multiple tasks under pressure.
- Demonstrated reliability, professionalism, and attention to detail while working flexible shifts and meeting daily operational demands.

### **Genadio's Souvlakia Restaurant, Pafos, Cyprus – Waiter**

Mar 2022 – Nov 2022

- Delivered fast and efficient customer service in a high-demand food service environment.
- Strengthened communication and multitasking skills while managing orders and assisting team operations.
- Maintained accuracy, professionalism, and a positive attitude during peak hours.

## **Skills**

Java • C++ • Python • HTML • CSS • WordPress • Elementor • Git • Problem Solving • Teamwork

## **Languages**

Greek (Native) • English (Very well)
